Front End Developer

Front-End Web Developer with over 1.5 years of combined local and professional experience in building responsive and user-friendly websites and web applications. Skilled in developing custom WordPress themes and plugins, and in creating dynamic, interactive interfaces using JavaScript, jQuery, HTML, CSS, Bootstrap, Tailwind CSS, and React.js. Additionally, I have a foundational understanding of back-end technologies such as Node.js, Express.js, and MongoDB, and have developed several small projects using the MERN stack. Passionate about crafting visually appealing, performance-optimized, and highly functional digital experiences.

Core Competencies

Programming Languages HTML, CSS, JavaScript, jQuery, Node.js

Frameworks Bootstrap, React.js, Tailwind css, Express.js

DataBase SQL, MongoDB

Version Control: GitHub, Git, VS code, GitLab

EXPERIENCE

Senew Tech, Pakistan

Jun 2025 - Nov 2025

Front End Developer, Lahore

- Developed and maintained responsive, user-friendly web interfaces using **HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, jQuery, and React**.
- Optimized front-end performance, ensuring **cross-browser compatibility and mobile responsiveness**.
- Integrated APIs and implemented interactive features to **enhance user experience**.
- Followed **best practices in code quality, version control (Git), and UI/UX standards**.

EvonicSoft (Pvt) Ltd, Pakistan

Dec 2024 - Mar 2024

Front End Developer, Bahawalpur

- Built and maintained **responsive web applications** using **HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS**.
- Assisted in developing **interactive UI components** and ensured **cross-browser compatibility**.
- Collaborated with the development team to **integrate APIs** and enhance application functionality.

StacksMind (Pvt) Ltd., Pakistan

Jun 2024 - Nov 2024

Front End Developer Internship, Lahore

- Developed **responsive and interactive web pages** using **HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS**.
- Worked closely with the design team to **convert Figma/PSD designs into pixel-perfect web interfaces**.
- Ensured **cross-browser compatibility, mobile responsiveness, and performance optimization**.

EDUCATION

The Islamia University of Bahawalpur, Bachelor of Science in Software Engineering, (GPA: 3.43), Mar 2022 - Jan 2026

- I am a motivated BS Software Engineering student (2022-2026) with a 3.4 CGPA and hands-on experience in front-end development.

GC University Lahore, Lahore, Pakistan, Intermediate in Computer Science, (GPA: 80%), Sep 2019 - Sep 2021

- I completed my Intermediate (Computer Science) from GC University Lahore with 80% marks

PROJECTS

Smart Learning Management System (LMS)

- Developed a full-stack Learning Management System that enables teachers to create, edit, and manage courses and quizzes, while students can enroll in courses, take quizzes, and track progress. The platform includes secure authentication, real-time data updates, and responsive dashboards built using React, Tailwind CSS, Node.js, Express, and Drizzle ORM

E-Commerce Website & Admin Dashboard

- As a Front-End Developer, I designed and developed a responsive **E-Commerce Website and Admin Dashboard**. The website allows customers to browse products, manage carts, and place orders with an intuitive user experience, while the admin dashboard enables easy management of products, categories, users, and orders. I implemented the front-end using **React.js**, **Tailwind CSS**, and **JavaScript**, ensuring pixel-perfect UI, responsive layouts, and optimized performance for a smooth and scalable web experience.

Login & Signup System (React.js)

- Developed a **secure authentication system** using the **MERN stack (MongoDB, Express, React, Node.js)**. Implemented **React-based login and signup pages** with **Formik and Yup** for form handling and validation, integrated **JWT authentication** and **localStorage** for session management, ensuring a smooth and secure user experience.

Personal Portfolio Website

- Built a responsive personal portfolio using HTML, CSS, Bootstrap, and JavaScript to showcase my projects, skills, education, and experience.

Crypto Price Tracker (React.js)

- Developed a **front-end web application** using **React.js** that integrates with a **cryptocurrency API** to fetch real-time coin prices and historical data. Implemented **dynamic charts and interactive UI components** to display market trends and improve user experience.

JavaScript Calculator

- Developed a fully functional calculator using HTML, CSS, and JavaScript with support for all basic arithmetic operations and a clean user interface.
